## HELP THE GOVERNMENT

By Contributing to the W. S. S. Publicity Campaign.

As stated in these columns last week, the government desires extensive publicity to be given the War Savings Stamp sales and has provided special advertising plates which the newspaper publishers are expected to purchase for the use of those liberal minded citizens who are willing to pay for the ad. space.

The publisher cannot be expected to carry the entire burden of cost and the department is counting on enough people in each locality to aid the publisher in boosting the great work.

Up to the present time only six different firms in Perrysburg have volunteered and contributed. The roll of honor for W. S. S. ads. thus far includes the following names:

A. J. WITZLER.  
CITIZENS BANKING CO.  
CHARLES L. KOCH CO.  
PERRYSBURG BANK & CO.  
A. E. & F. G. LEYDORF.  
FRED HILLABRAND.

This is the last appeal the Journal will make for the W. S. S. service. There are four more 1/4 page ads. to run. Who will help with these?

## THIRD LIBERTY LOAN.

The issue of \$500,000,000 of United States Treasury certificates, the subscription to which closed March 5, was oversubscribed, the subscription in every district, except one, exceeding the quota assigned it.

The banks of the country in the past two Liberty Loan campaigns and in the purchase of Treasury certificates issued before the loan responded to the demands of the country with inspiring loyalty and liberality. The faith they show in the Government finances and the patriotic response they give to the call of the Treasury are certain indications that their co-operation and assistance will help to insure the success of the Third Liberty Loan.

## Not a Conveyance.

### EVANGELICAL CHURCH.

Rev. C. W. Weltmer, Pastor.

Services for Sunday, March 24:  
Sunday School at 9:00.  
Subject: "Jesus Ministering to the Multitude." Mark 6:32-56.

Golden Text. The Son of man came not to be ministered unto, but to minister, and to give His life a ransom for many. Jesus was moved with compassion toward them, and he began to teach them many things. The people had intruded, yet Jesus was not disappointed or annoyed. He endured the world pressure of surrounding humanity in all its phases. In the people we are a striking representation of the moral conditions of the human family. In the provision for their hunger we see an exhibition of the blessings of the gospel. In the distribution of food we see the nature of the office of the Christian ministry. In the abundance of remaining fragments we see the boundlessness of gospel supplies. The miracle as a whole is a type of gospel provisions for the souls of men an emblem of the work of the church in the world.

Prayer meeting, Thursday evening.

Y. P. A. Sunday evening at 7:00. Preaching at 7:30. Thank you for your presence on last Sunday evening. Hope to see you next Sunday evening, such crowds are an inspiration to all.

## SOME OBSERVATIONS

Concerning Nothing Very Serious But Worthy of Thought.

When the U. S. Government stiffens its spine sufficient to take a long line of so-called German citizens out and stand them up against a stone wall facing a firing squad and let them hear the crack of the American rifles as the last sound to reach their traitorous ears, then, and then only, will there be an end to the dissemination of German propaganda on the soil of this fair land of the free. The question of a legal trial of this class of human destroyers should be taken up after their damnable carcasses have been buried.

Any set of workmen who decide to quit their employment at a time like the present are likely to feel exceedingly lonely.

What Russia needs is a governmental leadership that will not buy gold bricks made in Germany.

Germany is calling out all men and boys between the ages of 16 and 60. Thus she has nearly reached the end of her rope.

Viscount Ishii has in a wonderfully short time established himself on terms of the highest regard among the American people. Japan's selection of a man so competent to say the right thing in the right way as a diplomat in Washington is itself a stroke of the best kind of diplomacy.

Some of the senators are plainly apprehensive that the United States is going to acquire new political habits that may prove injurious to the Constitution.

It may be assumed that the staunch little nation Japan has in her unostentatious but thorough way been preparing for war for a great many years past.

The fact that he knows what he is fighting for and believes in it gives the American soldier a great advantage over the German soldier.

One coal famine should be enough to convince the American public that it is high time to harness the water power.

The Germans are to make their great drive with tanks. The game British, of course, will "expect every tank to do its damndest."

The Germans have freed the Poles from "Tsarism" to give them "Kaiserism," which is the same thing.

The Bolshevik version of a famous rhyme:

"He who fights and runs away  
May live to run another day."

These deep breathing exercises are all right but they need to be supplemented just now by some deep thinking.

Prince Leopold of Batavia says that the aim of the German advance in Russia is not annexation but prevention of the spread of the anarchistic infection. A sort of shot gun quarantine.

That hundredth air raid that caused such joy to the Crown Prince must have been undertaken merely to make up the round number. It did not harm and was therefore more innocent than most of the young man's amusements.

Starvation over much of the old world ought to give impetus to the war gardening in the new, as otherwise there may be some starvation here.

It will be noted that not even a coroner's jury recommends that young women should adopt the shooting of sweethearts as a regular pastime.

Sweden, Norway, Switzerland, Denmark and Holland have been watching the war so long at close range that they appear to be getting dizzy and may fall in.

There are grave robbers and there are those who seek to capitalize the war and rob the government on army contracts. The grave robbers should feel disgraced to be classified with these others.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Electric Oil. Fine for cuts, burns, bruises. Should be kept in every home. 30c and 60c.

## MORE DAYLIGHT

Government Inaugurates New System of Saving.

The daylight saving bill was signed by President Wilson. It puts all clocks forward an hour on the last Sunday in March and turns back again the last Sunday in October.

The daylight saving plan will go into effect and be observed without the slightest disorganization or impairment of existing conditions. Trains will run as usual, and every feature of daily life into which the element of time enters will remain unchanged.

Before retiring on the last Saturday of this month the American householder will set his clock an hour ahead and then may go to sleep and forget entirely about daylight until the last Saturday of October. On that date he will reverse the process, turning back the clock an hour and the next day the nation again will run on "sun" time.

"The comfort and convenience of many millions of people will be promoted by its passage, and"

"It is regarded as of special value in the present national emergency."

## WHAT WILL IT BE?

The management of the Ohio State Fair is offering a prize of ten dollars for a short, catchy, original slogan to be used in connection with the advertising of the Ohio State Fair.

The person sending the slogan that is adopted will receive the ten dollars.

Contest closes April 1, 1918. The slogan for 1916 was "Let's Go," for 1917 "Everybody's Going." Think up a better one.

This offer is open to all. Address Ohio State Fair, Columbus, Ohio.

## When You Have a Cold.

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, Pana, Ill., writes: "Our five-year-old son Paul caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."
